Reed Water Cup Holder - Instructions

“Don’t spill your reed water!”

1. Reed Water Cup Holder is mailed flat.
2. Pull apart two velcro tabs.
3. Wrap the "non-slip" gripper-lined tab securely around the upright of the music stand.
4. Make a circle with the fabric tab to accommodate water cup.
Pro Tip: A Tupperware cup or 35mm film canister works very well.
5. Attach the square of Velcro (included) to the cup lid. Stick it to the side of the holder so you won't lose it!

Pro Tip: Remember to take it with you after rehearsal or you might have to order another one. :-)

Fabric may not be exactly as shown. Cup not included.
